

Report Period: Sept 18th - 24th

Team Name: GridAI (sdmay23-38)

Senior Design Weekly Status Report; Fall 2022

Members

- Joshua Clinton
- Tanay Parik
- Elvis Kimara
- Rolf Anderson
- Ryan Herren

Summary of Progress

This week went well. We met our client on Monday and got a good introduction to the many things we'll be working on.

We accomplished the following:

- Finished team contract
- Agreed on when to meet and how frequently we'll see each other in person/online.

Pending Issues

1. Get access to the gitlab, virtual machines and gcp resources like introductory videos
2. @everyone finish individual parts of team site
3. Submit team contract
4. Learn CI/CD, docker, and start gcp familiarity
5. Meet sometime and analyze what part of our inherited repo still works, needs more work.
6. Submit first status report

✓ Plans for Next week (tag name, by when time)
