📅 Report Period: Oct 2nd - 9th

Team Name: GridAI *(sdmay23-38)*
Senior Design Weekly Status Report; Fall 2022

👥 Members

- Joshua Clinton
- Tanay Parik
- Elvis Kimara
- Rolf Anderson
- Ryan Herren

🗣️ Summary of Progress

Last week, we met our client virtually on Monday and got a good introduction to the many things we'll be working on. This week we met in person and we presented what each of us have learnt and will be working on. The client then answered our questions, and presented more on the things we'd need to know. Last week we:

➔ Got our questions answered and a deeper understanding of our project
➔ Made and submitted our first status report
➔ Transferred 22-35 Gitlab Repository to new 23-38 Repository

🔀 Pending Issues

☑ ~~Designing objectives/goals to accomplish this year~~
☑ ~~Transfer 22-35 Gitlab Repository to new 23-38 Repository~~
☑ ~~Make slides for what team has, and what we'd like to have (@present)~~

✅ Plans for Next week (tag name, by when time)

1. Set up working environment with VM and GCP access
2. Prepare presentation for future plans for the project

Contributions (tag name)

1. Joshua Clinton

   ➜ Presented slides on Front end

2. Ryan Herren

   ➜ Presented slides on Machine Learning

3. Tanay Parik

   ➜ Presented slides on Machine Learning and database

4. Rolf Anderson

   ➜ Presented slides on the front end aspects

5. Elvis kimara
   ➜ Presented slides on Virtual Assistant

Notes:

Need to access VMs and learn how to use it - QGIS

Dive in to Front End
